Praise of “El País del Dolor”

An exceptional book. Rarely are these social movements so immediately the subject of such profound reflection.

Eduardo Vázquez, writer and activist.

For its quality as an essay on a current issue, its argumentative soundness and its social commitment.

Jury of the XV Award of Political Essay “Guillermo Rousset Banda”

Remarkably well written, the essay seeks to document events, but also to develop a critical reflection.

Joel Ortega, Revista Memoria

Suaste's book is worth reading. An honest and well-informed book.

Gibrán Ramírez, El Sur de Acapulco

Comments on Bibliotopía

He is a superb, engaged translator and a wonderful, trustworthy person. He insisted on fully understanding our work -- so much so, that his questions sometimes showed us that our English original wasn't as clear as we thought it was! He was also remarkably quick and efficient. A great person to work with!

Jonathan Nitzan, York University
Capital as Power. A Study of Order and Creorder, Routledge.

It has been a true pleasure to work with Jesús on the translation of Making Money. He is not only very fast and competent, but he also does his work with a rare commitment

to the content and purpose of the text. I do not hesitate to give Jesús my best recommendations and I look forward to working with him on future projects.

Ole Bjerg, Copenhagen Business School
Making Money, The Philosophy of Crisis Capitalism, Verso Books.

Jesús did a superb job translating our book *Debt as Power* from English into Spanish. He is easy to communicate with, diligent and the translation was accomplished in an accurate and timely fashion to the highest standard. We were delighted with the enthusiasm that he brought to his work and the efforts he made, with much success, to fully understand the theme and arguments of our book. We are very pleased with the final translation and highly recommend his services without reservation.

Tim Di Muzio, University of Wollongong
Richard Robbins, State University of New York
Debt as Power, Manchester University Press

I have benefitted from Jesús Suaste's services repeatedly to translate academic articles from English into Spanish as well as for revision, proofreading and editing of texts written in Spanish by myself. He works extremely thoroughly and always meets the deadlines. With his impressive knowledge in Social Sciences and the Humanities, he is not only competent in his translation, but also appoints with certainty ambiguities in the original texts and proposes very appropriate solutions. No big surprise, I never got back suggestions for correction from any editor of texts which he translated or revised. I recommend his services most highly.

Georg Wink, University of Copenhagen
